Thank You for Choosing Us!

THE HR HUB

Running a business in Africa is already hard enough.

You're managing customers, chasing payments, keeping the lights on. And somewhere in the middle of all that, you're supposed to hire people, onboard them properly, stay compliant with labour laws you barely understand, handle payroll without errors, and somehow keep your team motivated.

It doesn't have to be this hard.

Most SMEs can't afford a full-time HR Manager. But they also can't afford not to have one. A bad hire cost you months of productivity. A compliance mistake costs you fines. Payroll errors cost you trust. Employee drama costs you focus.

That's where we come in! We give you an experienced HR professional who works with your business, part-time, flexible, and without the overhead of a full-time hire.

We're not consultants who show up, write a report, and disappear. We're HR professionals who become part of your team, most importantly, on your schedule, at a price that doesn't require a board meeting to approve.

We're simply reliable, experienced HR support that shows up when you need it and grows as you do. **We meet you where you are**, whether you're a team of **5 people trying to survive your first market or product launch, first compliance audit or 100 people scaling across regions on the continent.**

HOW IT WORKS

We match you with our HR professionals along with our lead consultants who show up on set days each week, becomes part of your team, and handles your people operations so you don't have to.
